The following is a complete listing of all claims in the application, with an indication of the status of each:

Listing of claims:

- 1 1. (currently amended) A communication system including:
2 a communication network; and
3 a plurality of terminal ~~device~~ devices connectable to said
4 communication network for transmitting and receiving ~~an~~ information through
5 said communication network;
6 wherein said communication system includes at least a table which
7 provides at least ~~a~~ one retrieval condition and at least a corresponding display
8 method ~~to for~~ said at least one retrieval condition, so as to enable said terminal
9 ~~device~~ devices to perform ~~a~~ retrieval ~~to of~~ said information under said at least
10 one retrieval condition and to display said information in accordance with said
11 ~~at least~~ corresponding display method.

- 1 2. (currently amended) The communication system as claimed in claim 1,
2 wherein said table comprises a key table which defines at least a key object
3 and at least a corresponding display method ~~to for~~ said key object.

- 1 3. (currently amended) The communication system as claimed in claim 2,
2 wherein said ~~at least~~ key object ~~comprise~~ comprises at least one of selected
3 from the group consisting of key words and key marks.

- 1 4. (original) The communication system as claimed in claim 1, wherein said
2 table includes designating data which designate necessary data for displaying

3 said information in accordance with said at least corresponding display
4 method.

1 5. (original) The communication system as claimed in claim 1, wherein said
2 table includes necessary data for displaying said information in accordance
3 with said at least corresponding display method.

1 6. (original) The communication system as claimed in claim 1, wherein said
2 table is editable.

1 7. (original) The communication system as claimed in claim 1, wherein said
2 table is transferable through said communication network.

1 8. (original) The communication system as claimed in claim 1, wherein said
2 information comprises an e-mail.

1 9. (original) The communication system as claimed in claim 8, wherein said
2 e-mail has at least an attached file.

1 10. (original) The communication system as claimed in claim 1, wherein said
2 table is stored in a memory of said terminal device.

1 11. (original) The communication system as claimed in claim 1, wherein said
2 table is open on a server computer on said communication network, so as to
3 enable said terminal device to download said table from said server.

1 12. (currently amended) The communication system as claimed in claim 1,
2 wherein each of said terminal ~~device~~ devices includes:

3 a first function block for performing said retrieval under said retrieval
4 condition with reference to said table; and
5 a second function block for displaying said information in accordance
6 with said ~~at least~~ corresponding display method.

1 13. (currently amended) The communication system as claimed in claim 12,
2 wherein each of said terminal ~~device~~ devices further includes:

3 a third function block for transmitting and receiving said table through
4 said communication network.

1 14. (currently amended) The communication system as claimed in claim 1,
2 wherein each of said terminal ~~device~~ devices includes:

3 a processing unit; and

4 a memory accessible by said processing unit, and said memory storing
5 a computer program comprising the steps of:

6 performing said retrieval under said at least one retrieval condition
7 with reference to said table; and

8 displaying said information in accordance with said ~~at least~~
9 corresponding display method.

1 15. (currently amended) The communication system as claimed in claim 14,
2 wherein said computer program further ~~comprising~~ comprises the step of
3 transmitting and receiving said table through said communication network.

1 16. (currently amended) A terminal device connectable to a communication
2 network, said terminal device comprising:

3 a processing unit;

4 a communication unit electrically coupled to said processing unit for
5 transmitting and receiving ~~an~~ information;
6 a display unit electrically coupled to said processing unit for displaying
7 said information;
8 an operation unit electrically coupled to said processing unit for
9 operating said terminal device; and
10 a memory unit electrically coupled to said processing unit for storing at
11 least a table which provides at least ~~a~~one retrieval condition and at least a
12 corresponding display method ~~to~~for said at least one retrieval condition, so as
13 to enable said terminal device to perform a retrieval ~~to~~of said information
14 under said at least one retrieval condition and to display said information in
15 accordance with said ~~at least~~ corresponding display method.

1 17. (currently amended) The terminal device as claimed in claim 16,
2 wherein said table comprises a key table which defines at least a key object
3 and at least a corresponding display method ~~to~~for said key object.

1 18. (currently amended) The terminal device as claimed in claim 17,
2 wherein said ~~at least~~ key object comprise at least one ~~of~~object selected from
3 the group consisting of key words and key marks.

1 19. (currently amended) The terminal device as claimed in claim 16, wherein
2 said table includes designating data which designate necessary data for
3 displaying said information in accordance with said ~~at least~~ corresponding
4 display method.

1 20. (currently amended) The terminal device as claimed in claim 16,
2 wherein said table includes necessary data for displaying said information in
3 accordance with said ~~at least~~ corresponding display method.

1 21. (original) The terminal device as claimed in claim 16, wherein said table
2 is editable.

1 22. (original) The terminal device as claimed in claim 16, wherein said table
2 is transferable from said communication unit through said communication
3 network.

1 23. (original) The terminal device as claimed in claim 16, wherein said
2 information comprises an e-mail.

1 24. (original) The terminal device as claimed in claim 23, wherein said
2 e-mail has at least an attached file.

1 25. (currently amended) The terminal device as claimed in claim 16, wherein
2 said terminal device includes:

3 a first function block for performing said retrieval under said at least
4 one retrieval condition with reference to said table; and

5 a second function block for displaying said information in accordance
6 with said ~~at least~~ corresponding display method.

1 26. (original) The terminal device as claimed in claim 25, wherein said
2 terminal device further includes:

3 a third function block for transmitting and receiving said table through
4 said communication network.

1 27. (currently amended) The terminal device as claimed in claim 16, wherein
2 said memory stores a computer program comprising the steps of:
3 performing said retrieval under said at least one retrieval condition
4 with reference to said table; and
5 displaying said information in accordance with said ~~at least~~
6 corresponding display method.

1 28. (currently amended) The terminal device as claimed in claim 27, wherein
2 said computer program further ~~comprising~~ comprises the step of transmitting
3 and receiving said table through said communication network.

1 29. (currently amended) A terminal device connectable to a communication
2 network, said terminal device ~~includes~~ including
3 a first function block for performing a retrieval ~~to an~~ of information
4 under at least ~~a one~~ one retrieval condition; and
5 a second function block for displaying said information in accordance
6 with at least a corresponding display method ~~to for~~ for said at least ~~a one~~ one retrieval
7 condition.

1 30. (currently amended) The terminal device as claimed in claim 29,
2 wherein said at least one retrieval condition and said ~~at least~~ corresponding
3 display method are recorded on a table.

1 31. (currently amended) The terminal device as claimed in claim 30,
2 wherein said table comprises a key table which defines at least a key object
3 and at least a corresponding display method ~~to for~~ for said key object.

1 32. (currently amended) The terminal device as claimed in claim 30, wherein
2 said table includes designating data which designate necessary data for
3 displaying said information in accordance with said ~~at least~~ corresponding
4 display method.

1 33. (currently amended) The terminal device as claimed in claim 30,
2 wherein said table includes necessary data for displaying said information in
3 accordance with said ~~at least~~ corresponding display method.

1 34. (original) The terminal device as claimed in claim 30, wherein said table
2 is editable.

1 35. (currently amended) The terminal device as claimed in claim 30, wherein
2 said table is transferable from ~~said a~~ communication unit through said
3 communication network.

1 36. (original) The terminal device as claimed in claim 30, wherein said
2 information comprises an e-mail.

1 37. (original) The terminal device as claimed in claim 36, wherein said
2 e-mail has at least an attached file.

1 38. (currently amended) A method of displaying ~~an~~ information, comprising
2 the steps of:
3 performing a retrieval ~~to an~~ of information under at least ~~a~~ one
4 retrieval condition; and
5 displaying said information in accordance with at least a corresponding
6 display method ~~to for~~ for said at least ~~a~~ one retrieval condition.

1 39. (currently amended) The method as claimed in claim 38, wherein said
2 retrieval is performed with reference to at least a table which provides said at
3 least ~~a~~one retrieval condition and ~~at least a~~said corresponding display method
4 ~~to for~~ said at least one retrieval condition, and said information is displayed in
5 accordance with said ~~at least~~ corresponding display method.

1 40. (currently amended) The method as claimed in claim 39, wherein said
2 table comprises a key table which defines at least a key object and at least a
3 corresponding display method ~~to for~~ said key object.

1 41. (currently amended) The method as claimed in claim 40, wherein said ~~at~~
2 ~~least~~ key object ~~comprise~~comprises at least one ~~of~~object selected from the
3 group consisting of key words and key marks.

1 42. (currently amended) The method as claimed in claim 39, wherein said
2 table includes designating data which designate necessary data for displaying
3 said information in accordance with said ~~at least~~ corresponding display
4 method.

1 ~~44~~43. (currently amended) The method as claimed in claim ~~43~~39, further
2 comprising the step of: reading out said necessary data in accordance with said
3 designating data before displaying said information.

1 ~~45~~44. (currently amended) The method as claimed in claim 39, wherein said
2 table includes necessary data for displaying said information in accordance
3 with said ~~at least~~ corresponding display method.

1 ~~46~~45. (currently amended) The method as claimed in claim 39, wherein said
2 information comprises an e-mail.

1 ~~47~~46. (currently amended) The method as claimed in claim ~~46~~45, wherein
2 said e-mail has at least an attached file.

1 ~~48~~47. (currently amended) A computer program ~~of for~~ displaying an
2 information, said computer program comprising:
3 means for performing a retrieval ~~to an of~~ information under at least a
4 one retrieval condition; and
5 means for displaying said information in accordance with ~~at least a~~
6 corresponding display method ~~to for~~ said at least ~~a one~~ retrieval condition.

1 ~~49~~48. (currently amended) The computer program as claimed in claim ~~48~~47,
2 wherein said retrieval is performed with reference to at least a table which
3 provides said at least ~~a one~~ retrieval condition and ~~at least a said~~
4 corresponding display method ~~to for~~ said at least one retrieval condition, and
5 said information is displayed in accordance with said ~~at least~~ corresponding
6 display method.

1 ~~50~~49. (currently amended) The computer program as claimed in claim ~~49~~48,
2 wherein said table comprises a key table which defines at least a key object
3 and at least a corresponding display method ~~to for~~ said key object.

1 ~~51~~50. (currently amended) The computer program as claimed in claim ~~50~~49,
2 wherein said ~~at least~~ key object comprise at least one ~~of object~~ selected from
3 the group consisting of key words and key marks.

1 ~~52~~51. (currently amended) The computer program as claimed in claim ~~49~~48,
2 wherein said table includes designating data which designate necessary data
3 for displaying said information in accordance with said ~~at least~~ corresponding
4 display method.

1 ~~54~~52. (currently amended) The computer program as claimed in claim ~~53~~48,
2 further comprising ~~the step of:~~ means for reading out said necessary data in
3 accordance with said designating data before displaying said information.

1 ~~55~~53. (currently amended) The computer program as claimed in claim ~~49~~48,
2 wherein said table includes necessary data for displaying said information in
3 accordance with said ~~at least~~ corresponding display method.

1 ~~56~~54. (currently amended) The computer program as claimed in claim ~~49~~48,
2 wherein said information comprises an e-mail.

1 ~~57~~55. (currently amended) The computer program as claimed in claim ~~56~~54,
2 wherein said e-mail has at least an attached file.
